

SIF Implementation Survey Directions

Thank you for agreeing to complete the SIF Implementation Survey.

The Survey consists predominantly of two sections: Institution information and Implementation information. Most of the information on the survey should be in your head, at your fingertips, or easy to locate, particularly if you are intimately involved with your SIF implementation.

We strongly suggest that you use the attached Implementation Survey Preparation Form as a guide to collect the information you need to complete the survey. This document parallels the online survey and should speed completion of the online form. Note that once you complete the online survey you will not be able to get back to that survey to make any edits so be prepared.

If you have any questions while preparing to complete the online survey, please email those questions to: SIImpsurvey@edusystemics.com . We promise to get back to you promptly.

When you have gathered all the information you need, you can complete the online survey at:

<http://www.surveymonkey.com/s/sifimplsurvey>

Within a few days of completing the survey, you will receive a confirmation email, information regarding the benefit you earned by completing the survey, and any questions we might have about to clarify the answers you provided.

Thank you so much for your participation and continued support of SIF!
